DECLOR

Concentrated Cleaner Removes Salt, Chloride, and Urea

Description: Daycon Declor is a highly-concentrated cleaner specially formulated to help remove salt, potassium chloride, calcium chloride, and urea from hard floors. Its high sequesterant value makes the materials more soluble and less reactive with soaps and detergents. Use at 2 oz. - 4 oz. per gallon of water. The best way to use this product is to apply the solution liberally to the floor and agitate with a mop, brush, or machine. Pick up solution with wet dry vacuum. Liberally rinse floor with plain water and again pick up with vacuum.

Benefits:

- Highly concentrated
- Safe on floor finish, marble, terrazzo, and other stone floors
- More effective than regular floor cleaning detergents

Specifications:

Appearance:	Clear liquid
Color:	Orange
Odor:	Mild sassafras
Specific Gravity:	1.05 ± .01 @ 20°C
Active Ingredients:	20% minimum
Flash Point:	None - not flammable
pH: as is:	8.0 ± .05
