

Daycon Sales Bulletin

March 23, 2020

Today, Maryland Governor Larry Hogan, issued the order that all non-essential businesses be closed. We want to assure our customers that Daycon Products Co., Inc. is a designated “Essential Business” for Maryland.

What does that mean? Because our business manufactures and distributes products that are critical for the health and safety of Marylanders, Daycon will continue to operate during normal business hours.

You may contact customer service Monday-Friday, 8am – 5pm, via 1.800.394.0019 or customer.service@dayconmail.com. You can also visit one of our ProCenters, Monday - Friday, 8am-6pm, and Saturday 9am-2pm. Store locations can be found here: <http://www.daycon.com/procenter/locations/>.

Additionally, Daycon will be assisting our communities across Maryland, DC, and VA further by allocating 5% of our disinfectant production, while raw materials continue to be available, to the essential and critical organizations that continue to operate. Additionally, when available, gloves and sanitizer will be donated as well.

Please follow us on [Facebook](#) (@dayconprod) and [LinkedIn](#) for continued updates on our business, our industry, and our community.

Stay Safe,

The Daycon Team
